PROFILE

Business analyst with over six years of experience in requirements, documentation and process work across different business areas. For the past few years I have worked at the interface between clients and engineering: eliciting requirements, writing specifications and user stories, and checking delivered work against acceptance criteria. I work in Jira and Confluence. I completed an IT project management course through a U.S. Embassy program and am taking the PSM I exam in November 2026.

I am currently COO of SayWhen.am, an AI voice-agent startup, where I run development with the CTO and manage the company's corporate clients across the full engagement cycle. My legal background — contract analysis and drafting judicial acts across 200+ cases — gave me the habit of precise, testable writing.

WHY ME FOR THIS ROLE

- **Requirements elicitation.** Hundreds of structured intake interviews with people who described symptoms rather than needs. Working out what someone actually requires, as opposed to what they asked for, is the oldest skill I have.
- **Documentation that holds up.** Specifications, SOPs, checklists, training curricula, contracts and judicial acts. In law an ambiguous sentence loses the case, so written precision is a habit, not a soft skill.
- **Process redesign with measurable results.** As a case manager at U.S. legal services companies I rebuilt client-project workflows. At one company the cycle became strictly six months or less, two- and four-month express tracks were introduced, errors decreased, and the share of successful cases rose by 35%.
- **Stakeholder management.** Clients under pressure, the CTO, eight specialists, contractors and vendors — I am comfortable getting an answer from people who do not report to me.
- **Technical background.** I understand the software development lifecycle and work with REST APIs, JSON, Postman and Swagger/OpenAPI specs; I completed a C programming intensive at 42 Yerevan and build working prototypes myself with AI tools.

EXPERIENCE

COO — SayWhen.am (AI voice-agent startup)

Feb 2026 – present

- Run product development with the CTO in Jira and Confluence: requirements, specification, backlog and priorities, and acceptance of each stage.
- Manage the company's corporate clients across the full engagement cycle: needs discovery, agreement on scope and timelines, and regular progress reporting during implementation.

Freelance — project and legal work Feb 2026 – present

- Designed a U.S. client-acquisition pilot for **Karas Systems** (B2B go-to-market consultancy): a three-scenario funnel model, budget, payback and decision gates.
- Business research for a water production line; CPA/affiliate manager (under NDA); legal projects — IP assignment for works by popular musicians, a corporate structure for a crypto trader and advice on opening a crypto-exchange office in Armenia; sale of family real estate.

Senior Case Manager — M&M Document Preparation (U.S.) Jun 2025 – Feb 2026

- Owned up to **12 complex client projects at a time**, end to end, against fixed external deadlines.
- Redesigned the delivery process: a cycle of **strictly six months or less**, new **two- and four-month express tracks**, fewer errors through a shared knowledge base, and a **35% higher success rate**.
- Coordinated **8 specialists** and reviewed their work against written acceptance criteria; my templates, checklists and hand-off rules became the team standard.

Event / Project Manager — Hosq Corp. Jan 2025 – Jun 2025

- Delivered live events for **100 to 3,000** people — several in parallel, on dates that could not slip; owned vendors, logistics, scheduling and day-of operations.

Project Manager — Qanon Construction Aug 2024 – Dec 2024

- Client communication, scope agreement, timelines and internal follow-through.

Legal practice — U.S. law firms, Arbitration Court, Bar Association Dec 2019 – Aug 2024

- Senior Paralegal at Shamayev Business Law, Paralegal at Bloomrich Law Firm: built the internal training program **Paralegal Academy** (50+ people) and improved the firms' internal processes.
- Judge's Associate: **200+ concurrent cases, 30+ hearings a week**; earlier, contract analysis and claims work at a Bar Association.

Project Manager — SIS LLC (family business) Jun 2015 – Sep 2019

- Managed projects including an **investment project made up of 11 public and private tenders worth RUB 42M** — every site delivered **on time and accepted with no defects noted**.
- Teams of up to 20; procurement, logistics between sites and recruiting; built the first schedules and Gantt charts; set up a regional supply network for the retail business.
