PROFILE

Project manager with hands-on iGaming operating experience on two sides of the industry: marketing inside a live-casino product (operator under NDA), and partner acquisition and traffic monetization on the affiliate side at Digital Caramel. Around that sit over six years of running parallel workstreams to fixed deadlines — up to 12 complex client projects at once while coordinating 8 specialists — and a legal background that includes contract work and legal support for licensing in specific jurisdictions, which in this industry is not a footnote.

WHY IGAMING SPECIFICALLY

- **Live casino, from the inside.** At a live-casino operator I planned, launched and optimized digital campaigns across PPC, paid social, email and SEO support — managing a **$3,000 monthly budget**, running localized campaigns in **three languages**, and lifting landing-page conversion by **15%**.
- **Affiliates and traffic.** At Digital Caramel I acquired and onboarded **60 new partners**, running roughly **15 active negotiations a week**, and worked with leadership on the marketing strategy — including an onboarding rework that cut partner onboarding time **in half**.
- **Commercial terms.** CPA and RevShare negotiation, traffic and metric analysis, ad networks, and coordination with AdOps, design, content, product and sales.
- **Licensing and contracts.** Legal support for licensing in specific jurisdictions, plus six years of legal practice, including civil-contract analysis and claims. Compliance conversations do not need translating for me.
- **Delivery with measurable results.** At one U.S. company I rebuilt the client-project workflow: a strictly six-month cycle, two- and four-month express tracks and a 35% higher success rate. Earlier I delivered an investment project of 11 tenders worth RUB 42M on time.
